Arabic

PROFILE

I am a passionate and enthusiastic student of programming. I enjoy solving complex problems and learning new technologies. I am very motivated to learn and grow in the field of programming.

WORK EXPERIENCE

internship

Atikia Company — 03/2023 - 07/2023

- Developed cross-platform mobile apps using **React Native**, integrated backend with **Express/Node.js**, managed data with **Prisma/PostgreSQL**, and enhanced app functionality with third-party **APIs**. Improved code quality and type safety using **TypeScript**, and **documented** technical processes for knowledge sharing.

PROJECTS

- **Born2beroot (System Administration)** : Managed and optimized system configurations.
- **Fdf** : Created visually stunning 3D landscape representations.
- **Minishell**: Developed a custom Bash-like shell in C, enhancing command-line interactions.
- **Philosophers**: Successfully participated in a project involving concurrent programming and synchronization.
- **Cub3D** : Designed dynamic views within complex maze environments.
- **Webserv (HTTP Server)**: Developed a high-performance custom HTTP server using C++, optimizing request-response cycles, and ensuring robust error handling.
- **Movie-LandingPage**: Crafted an engaging movie landing page using HTML, CSS, and JavaScript.
- **Todos Mobile App:** Created a full-stack Todos app with React Native, Express.js, and MySQL, featuring CRUD operations and real-time updates.
- **Inception**: Proficiently utilized Docker for streamlined system administration.
- **ft_transcendence**: Developed an interactive online gaming platform with real-time chat integration, leveraging single-page application (SPA) design principles for enhanced user experiences.
- **portfolio**: Minimalist web experiences powered by React.js and styled with precision using Tailwind CSS

SOFT SKILLS

- Strong organizational skills
- Punctuality and Creativity Adaptability
- Teamwork
- Autonomous
- Time management
- Analytical thinking
- Collaborative mindset
